**Paris** Gloria Parra has participated in the Forum of Tunis (Sept 2018) : *Un autre regard sur les migrations humaines (Another look at human migrations)*. This forum led in Tunisia to the creation (or recreation) of a radio to counter the erroneous vision of the Western world that brings so many potential migrants to migration and to their ruin. To be followed.

- *Do these differences cause implementation problems? If yes, how?*
- *What sort of targets and metrics should NGOs use to ensure our definition of **quality education** can be delivered?*
- *What are immediate steps/actions NGOs can take to deliver our definition of **quality education**?*
